Re: David Nickason, MVP, Windows Server System - Small Business Server

Dear Mr. Gerald Dibble,

It is with great pride that we announce that David Nickason has been awarded as a Microsoft® Most Valuable Professional (MVP), 01/01/2006-01/01/2007, for their demonstrated technical expertise, willingness to help others and commitment to technical communities. All of us at Microsoft recognize and appreciate David Nickason's extraordinary contribution and want to take this opportunity to share our excitement with you.

Collectively, Microsoft MVPs represent the most active community members from around the world who provide invaluable online and offline expertise and are an inspiration to all of us. They represent the voice, strength and value of the community; a voice that is instrumental in how we connect with our customers and provide more value to the marketplace. MVPs are technology's best and brightest, and we are honored to welcome David Nickason as one of them.

To recognize the contributions they make, MVPs from around the world have the opportunity to meet Microsoft executives, network with peers in the technology space, position themselves as technical community leaders through speaking engagements, one on one customer event participation and technical content development. MVPs also receive early access to technology through a variety of programs offered by Microsoft, which keeps them on the cutting edge.

As a recipient of this year's Microsoft MVP award, David Nickason joins a stellar group of individuals from around the world who have demonstrated a willingness to reach out, share their technical expertise with others and help individuals maximize their use of technology.

Sincerely,

A handwritten signature in cursive script that reads "Lori Moore".
